

Wi-Fi Cloud Printer G-EIV200 Thermal Receipt Printer

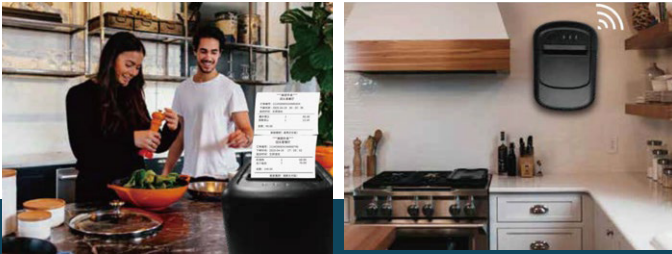

Print Method	Direct Thermal
Print Speed	200mm/sec
Interface	Ethernet+Wi-Fi Cloud+USB (Option 4G)
Auto Cutter	Yes
Voice Prompt	Chinese or English
Print Width	72mm or 80mm
Paper Width	80mm
Barcode Type	UPC-A/UPC-E/JAN13(EAN13)/JAN8(EAN8)/CODE39/ITF/COD ABAR/CODE93/CODE128
Language	Simplified Chinese, Traditional Chinese, English (PC437), PC850, Katakana, PC860, PC863, PC865, West Europe, PT151,1251, WPC1257, PC864, Vietnam, Thai etc
Power Adapter	Input: AC 110V/220V, 50~60Hz Output: DC 24V/2A
Cash Drawer	DC 24V/1A
Auto Cutter	1.5 Million cuts
Working Environment	Temperature: 5~45°C, Humidity: 10~80%
Physical Dimension	143x202x144mm (LxWxH)
Weight	1.9KG

Cloud Printer Features Introduction

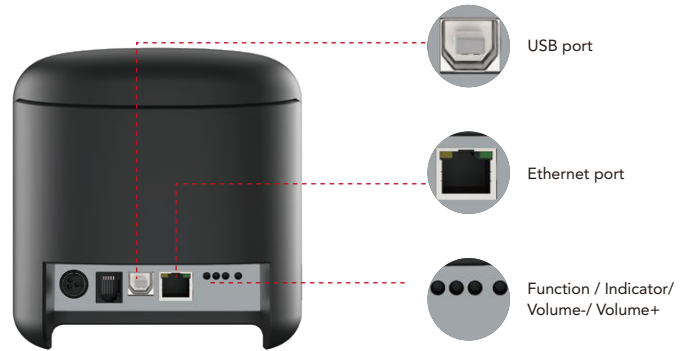

1. Built with Auto Cutter, Ideal for Restaurant and Retail Application Field

- ▶ Support multiple shop and platform to integrate
- ▶ Support desktop installation, wall-mount installation
- ▶ Support API interface for software integration

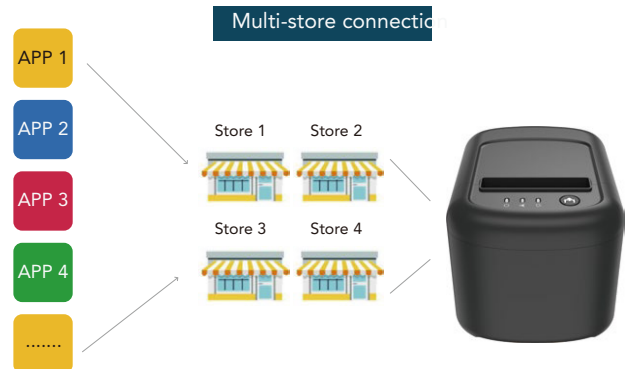

2. Ethernet+Wi-Fi Cloud+USB Connectivity

- ▶ Support Ethernet and WiFi connection to receive cloud printing task integrate
- ▶ Support USB port for POS terminal to connect
- ▶ Unique sound volume button design, to turn up and turn down
- ▶ Real voice prompt when new order is coming

3. Provide API interface for retail and restaurant software integration

- ▶ Support MQTT IoT protocol
- ▶ Provide customized cloud service
- ▶ No need PC, Mobilephone connection, automatic receiving order and printing order.
- ▶ Support connecting to different platforms to receive printing order.

4. Application Environment

- ▶ Restaurant, supermarket, take-away shop, central kitchen, coffee/tea/retail shops
- ▶ Customers Place order online ->
EIV200 get orders printed ->
Prepare food/drink/products
